RE: Saad (Trousedale Road) Site
Nashville, Tennessee

Dear Mr. Saad:

This letter is to confirm my verbal request for documentation that you have sufficient funds to implement the work plan for Phase I. This documentation must include a certification from the parties that will actual provide the funds. It should specify what the funding is for, the amount of the funding, and any conditions under which the funding is provided.

If I do not receive documentation by Monday, January 29, 1990, I will recommend that the Agency proceed with an Administrative Order by Consent with the other potentially responsible parties (PRP).

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Rita Ford", is written above the typed name.
